Subject index

A

Accreditation consultants for predoctoral and advanced education, selection of (Ginley), 55
Acrylic resin, tissue reaction to (Bickley et al.), 156
Adapatation of intracoronal inlays, relationship of bevels to (Hoard and Watson), 538
Adhesion of polycarboxylate cements to dental casting alloys (Saito et al.), 543
Aid, intraoral training, use of, in speech rehabilitation of laryngectomy patients (Light et al.), 430
Alloys(s), dental casting, adhesion of polycarboxylate cements to (Saito et al.), 543
  surgical splints, cast chromium (Axinn et al.), 475
Amalgam, dental, containing metal pins, physical properties of (Ishikiriama et al.), 416
  restorations, extracoronal, utilizing available tooth structure for retention (Birtcil and Venton), 171
American Board of Endodontics, diplomate status and (Blechman), 82
  Prosthodontics, evaluation of examination given by (Woody and Grisius), 74
  examination by—evaluation (Barnett), 71
  future of (Sharry), 79
Articulators, fully adjustable, reliability of, using computerized analysis (Beck and Knap), 630
Attachment, retentive, for overdentures (Stansbury), 228
Attitudes of senior dental students, survey of: undergraduate education (Aborn), 21
Autogenous root transplantation, technique for (Yuodelis and Filipchuk), 307
Auxiliaries, expanded-duty dental, and prosthodontics of future (Welker), 348
  function, meeting prosthodontic needs with (Leverett), 68
  in prosthodontic practice, use of (Wendt), 65
  use of, in prosthodontic graduate programs (Ortman), 62

B

Bevels, relationship of, to adaptation of intracoronal inlays (Hoard and Watson), 538
Biofeedback, electromyographic, using, in treating orofacial dyskinesia (Farrar), 384
Boards, dental specialty, comparison of relationships of, with their parent organizations (Elliott), 341
Bonding strength, dentinal, of five dental cements, effect of varnish on (Chan et al.), 403
Bone grafts and subperiosteal implants, combined, rehabilitation of grossly deficient mandibles with (Kratochvil et al.), 452
  -titanium implant response to mechanical stress (Kydd and Daly), 567
Book reviews, 597, 695

C

California, University of Southern, advanced prosthodontic education at: making of prosthodontist (Landesman), 580

January, pp. 1-120; February, pp. 121-242; March, pp. 243-366; April, pp. 367-488; May, pp. 489-604; June, pp. 605-720.

Canadian government, profession, mechanics, and delivery of removable dentures (Ryan), 89
Canine and group-function occlusions, tooth loading and cuspal guidance in (McAdam), 283
Capillaries, gingival, morphology of, adjacent to complete crowns (Maruyama et al.), 179
Carvings, occlusal, classification of (Guichet), 97
Cast(s), dental, made with natural teeth (Cupero), 680
mandibular, registrations for relating, to maxillary cast based on Kennedy's classification system (Lundquist and Fiebiger), 371
wax-ups, refractory, evaluating, for removable partial dentures (Frank), 388
Casting alloys, dental, adhesion of polycarboxylate cements to (Saito et al.), 543
Cement(s), five dental, effect of varnish on dentinal bonding strength of (Chan et al.), 403
four inlay, in vivo evaluation of marginal leakage of (Andrews and Hembree), 532
polycarboxylate, adhesion of, to dental casting alloys (Saito et al.), 543
temporary zinc oxide/eugenol, pulp reaction to (Brännström and Nyborg), 185
Ceramic-metal restorations, design and technique variables affecting fracture resistance of (Warpeha and Goodkind), 291
Characteristics of irradiated soft and hard tissues (Robinson), 549
Chromium alloy surgical splints, cast (Axinn et al.), 475
Classification of occlusal carvings (Guichet), 97
system, Kennedy's, registrations for relating mandibular cast to maxillary cast based on (Lundquist and Fiebiger), 371
Cleft-palate patient, congenital, prosthetic management of (Birnbach), 654
Clinical practice, limitation of, to prosthodontics (Laney), 57
prosthodontics–undergraduate education, definition of (Brown), 15
requirements, minimal, for advanced prosthodontic education (Koper), 34
undergraduate prosthodontic education (Kaufman), 18
minimum, for advanced education in prosthodontics (Chalian and Dykema), 39
Clinical requirements, minimum—Cont'd
graduate prosthodontic education (Guyer), 37
results of measurement of occlusal wear of complete dentures (Harrison), 504
Color photography, intraoral infrared, of radiotherapy patients (McCarty), 327
Computerized analysis, reliability of fully adjustable articulators using (Beck and Knap), 630
Congenital cleft-palate patient, prosthetic management of (Birnbach), 654
Consultants, accreditation, for predoctoral and advanced education, selection of (Ginley), 55
to Council on Dental Education for advanced education (Adisman), 52
Contours, excessive crown, facilitate endemic plaque niches (Parkinson), 424
Core-post restoration, direct pattern for, practical technique for fabrication of (Jacoby), 357
Council on Dental Education, consultants to, for advanced education (Adisman), 52
Courses, postgraduate and refresher, 112, 482
Crown(s), complete, morphology of gingival capillaries adjacent to (Maruyama et al.), 179
contours, excessive, facilitate endemic plaque niches (Parkinson), 424
Curriculum content—advanced education in prosthodontics (Jones), 31
curtailment in prosthodontic education (Sharry), 469
"Cusp writer" findings, application of, to practical and theoretical occlusal problems. Part I (Scott), 211; Part II (Scott), 332
Cuspal guidance and tooth loading in canine and group-function occlusions (McAdam), 283

D

Defect space, vertical-lateral, reproducing, in obturator construction (Parel and Drane), 314
Dental amalgam containing metal pins, physical properties of (Ishikiriama et al.), 416
auxiliaries, expanded-duty, and prosthodontics of future (Welker), 348

Dental—Cont'd
casting alloys, adhesion of polycarboxylate cements to (Saito et al.), 543
casts made with natural teeth (Cupero), 680
cements, five, effect of varnish on dentinal bonding strength of (Chan et al.), 403
Education, Council on, consultants to, for advanced education (Adisman), 52
prepayment, structure of, in 1975 (Marshall), 84
restorations, occlusal aspects of, specifications for (Guichet), 101
specialty boards, comparison of relationships of, with their parent organizations (Elliott), 341
Dentinal bonding strength of five dental cements, effect of varnish on (Chan et al.), 403
Dentulous hemimandibulectomy patients, rehabilitating (Moore and Mitchell), 202
Denture(s) acceptance, self-image and its relation to (Silverman et al.), 131
complete-arch fixed partial, accuracy of six elastic impression materials used for (Stauffer et al.), 407
clinical results of measurement of occlusal wear of (Harrison), 504
maxillary, tissue pressure under (Cutright et al.), 160
measurement of personality traits and their relation to patient satisfaction with (Smith), 492
quest for ideal occlusal patterns for (Koyama et al.), 620
functioning complete, method of measuring pressures against tissues supporting (Kelsey et al.), 376
histology, long-term implant, and comparison with previous reports (Bodine et al.), 665
immediate, comparing ridge resorption with various surgical techniques in (Michael and Barsoum), 142
muscle-formed complete mandibular (Walsh and Walsh), 254
patients, complete, treatment of, in geriatric facility (Fellman), 512
removable, delivery of, profession, mechanics, Canadian government, and (Ryan), 89
partial, evaluating refractory cast wax-ups for (Frank), 388
study of four methods of recording path of insertion of (Wagner and Forgue), 267
Denture(s)—Cont'd
success or failure, practical questionnaire for predicting (Levin and Landesman), 124
Design and technique variables affecting fracture resistance of metal-ceramic restorations (Warpeha and Goodkind), 291
Diagnosis and evaluation, patient, face in (Emory), 247
Dies, technique for fabricating (Zakaria), 231
Diplomate status and American Board of Endodontics (Blechman), 82
Directory, 116, 236, 362, 484, 599, 699
Disease, possible premature degenerative temporomandibular joint, in violinists (Rieder), 662
Dyskinesia, orofacial, using electromyographic biofeedback in treating (Farrar), 384

E

Edentulous gnathologic recordings utilizing "vacustatics" (Hunt and Yoxsimer), 588
patients, examination forms for—survey (Nassif), 222
hinge-axis location and face-bow transfer for (Renner and Lau), 352
psychophysical investigations of preferred vertical dimension of occlusion in (van Willigen et al.), 259
Editor, through eyes of (Section editors), 1, 121, 243, 367, 489, 605
Education, advanced dental, prosthodontics in general practice program of (Plekavich), 26
prosthodontic (Boucher), 29
minimal clinical requirements for (Koper), 34
survey of graduate students (Aborn), 47
at University of Southern California: making of prosthodontist (Landesman), 580
Council on Dental, consultants to, for advanced education (Adisman), 52
graduate prosthodontic, minimum clinical requirements for (Guyer), 37
predoctoral and advanced, selection of accreditation consultants for (Ginley), 55
programs in prosthodontics, advanced, recruiting students for (Brewer), 43
in prosthodontic(s), advanced—curriculum content (Jones), 31
minimum clinical requirements for (Chalian and Dykema), 39
curriculum curtailment in (Sharry), 469

Education—Cont'd
and Research Foundation of Prosthodontics (Boos and Perry), 572
undergraduate–clinical prosthodontics, definition of (Brown), 15
number and qualifications for: prosthetic teachers (McGivney), 10
prosthodontic, minimal clinical requirements for (Kaufman), 18
survey of attitudes of senior dental students (Aborn), 21
Elastic impression materials, six, accuracy of, used for complete-arch fixed partial dentures (Stauffer et al.), 407
Electrodes, different, histologic comparison of effects of electrosurgical resection using (Noble et al.), 575
Electromyographic biofeedback, using, in treating orofacial dyskinesia (Farrar), 384
Electron microscope study—when to glaze (Barghi et al.), 648
Electrosurgical resection, histologic comparison of effects of, using different electrodes (Noble et al.), 575
Endemic plaque niches, excessive crown contours facilitate (Parkinson), 424
Endodontics, American Board of, diplomate status and (Blechman), 82
Esthetic form, systematic approach to control of (Preston), 393
Etching, effects of, on margins of cast gold restorations (Farne and Nealey), 273
Eugenol/zinc oxide cement, temporary, pulp reaction to (Brännström and Nyborg), 185
Examination by American Board of Prosthodontics—evaluation (Barnett), 71
data, various temporomandibular joint, interrelationships of, in initial survey population (Rieder), 299
forms for edentulous patients—survey (Nassif), 222
given by American Board of Prosthodontics, evaluation of (Woody and Grisius), 74
Eye protection from light radiation (Staffanou et al.), 682

F

Face in patient evaluation and diagnosis (Emory), 247
Face-bow transfer and hinge-axis location for edentulous patients (Renner and Lau), 352
Facial paralysis, unilateral, prosthetic support for (Larsen et al.), 192
Facility, geriatric, treatment of complete denture patients in (Fellman), 512
Flexure, mandibular, influence of fixed splints on (Fischman), 643
Foramina, posterior accessory, of human mandible (Haveman and Tebo), 462
Form(s), esthetic, systematic approach to control of (Preston), 393
examination, for edentulous patients—survey (Nassif), 222
Foundation of Prosthodontics, Education and Research (Boos and Perry), 572
Fracture resistance of metal-ceramic restorations, design and technique variables affecting (Warpeha and Goodkind), 291
Frames, multiple-unit, stress free-support for, for application of porcelain (Presswood and Choate), 585
Function, temporomandibular joint, and its effect on concepts of occlusion (Weinberg), 553

G

Galvanism, method for control of (Watson and Wolcott), 279
General dentistry, teaching prosthodontics in (Welsh), 23
practice program of advanced dental education, prosthodontics in (Plekavich), 26
Geriatric facility, treatment of complete denture patients in (Fellman), 512
Gingival capillaries, morphology of, adjacent to complete crowns (Maruyama et al.), 179
Glaze, when to—electron microscope study (Barghi et al.), 648
Gnathologic recordings, edentulous, utilizing "vacustatics" (Hunt and Yoxsimer), 588
Gold restorations, cast, effects of etching on margins of (Farne and Nealey), 273
Government, Canadian, profession, mechanics, and delivery of removable dentures (Ryan), 89
Graduate programs in prosthodontic(s), do we need all these (McHugh), 49
use of auxiliaries in (Ortman), 62
prosthodontic education, minimum clinical requirements for (Guyer), 37
students, survey of: advanced prosthodontic education (Aborn), 47

Grafts, bone, and subperiosteal implants, combined, rehabilitation of grossly deficient mandibles with (Kratochvil et al.), 452
Group-function and canine occlusions, tooth loading and cuspal guidance in (McAdam), 283
Guidance, cuspal, and tooth loading in canine and group-function occlusions (McAdam), 283

H

Habits, occlusal, and headaches/neckaches, some, incidence of, in initial survey population (Rieder), 445
Headaches/neckaches and occlusal habits, some, incidence of, in initial survey population (Rieder), 445
Hemimandibulectomy patients, dentulous, rehabilitating (Moore and Mitchell), 202
Hinge-axis location and face-bow transfer for edentulous patients (Renner and Lau), 352
Histologic comparison of effects of electrosurgical resection using different electrodes (Noble et al.), 575
Histology, long-term implant-denture, and comparison with previous reports (Bodine et al.), 665
Human mandible, posterior accessory foramina of (Haveman and Tebo), 462

I

Illegal practice of dentistry, combating (Fletcher), 92
Implant(s)–bone response, titanium, to mechanical stress (Kydd and Daly), 567
denture histology, long-term, and comparison with previous reports (Bodine et al.), 665
embedded, review of—mandibular replacements (Williams et al.), 207
subperiosteal, and bone grafts, combined, rehabilitation of grossly deficient mandibles with (Kratochvil et al.), 452
Impression materials, six elastic, accuracy of, used for complete-arch fixed partial dentures (Stauffer et al.), 407
Infrared color photography, intraoral, of radiotherapy patients (McCarty), 327
Inlay(s) cements, four, in vivo evaluation of marginal leakage of (Andrews and Hembree), 532
intracoronal, relationship of bevels to adaptation of (Hoard and Watson), 538
Insertion of removable partial dentures, path of, study of four methods of recording (Wagner and Forgue), 267
In-service teacher training in removable prosthodontics (Brundo), 674
Intracoronal inlays, relationship of bevels to adaptation of (Hoard and Watson), 538
Irradiated soft and hard tissues, characteristics of (Robinson), 549

J

Joint disease, possible premature degenerative temporomandibular, in violinists (Rieder), 662
examination data, various temporomandibular, interrelationships of, in initial survey population (Rieder), 299
function, temporomandibular, and its effect on concepts of occlusion (Weinberg), 553
solder, between precious and nonprecious metal, photomicrographic evaluation of (Walters), 689
JOURNAL OF PROSTHETIC DENTISTRY, THE (Smith), 103

K

Kennedy's classification system, registrations for relating mandibular cast to maxillary cast based on (Lundquist and Fiebiger), 371

L

Laryngectomy patients, use of intraoral training aid in speech rehabilitation of (Light et al.), 430
Lateral-vertical defect space, reproducing, in obturator construction (Parel and Drane), 314
Leakage, marginal, of four inlay cements, in vivo evaluation of (Andrews and Hembree), 532
Light radiation, eye protection from (Staffanou et al.), 682
Loading, tooth, and cuspal guidance in canine and group-function occlusions (McAdam), 283

M

Mandible(s), grossly deficient, rehabilitation of, with combined subperiosteal implants and bone grafts (Kratochvil et al.), 452

Mandible(s)—Cont'd
human, posterior accessory foramina of (Haveman and Tebo), 462
Mandibular cast, registrations for relating, to maxillary cast, based on Kennedy's classification system (Lundquist and Fiebiger), 371
dentures, muscle-formed complete (Walsh and Walsh), 254
flexure, influence of fixed splints on (Fischman), 643
replacements—review of embedded implants (Williams et al.), 207
Marginal leakage of four inlay cements, in vivo evaluation of (Andrews and Hembree), 532
Margins of cast gold restorations, effects of etching on (Farne and Nealey), 273
Materials, six elastic impression, accuracy of, used for complete-arch fixed partial dentures (Stauffer et al.), 407
Maxillary cast, registrations for relating mandibular cast to, based on Kennedy's classification system (Lundquist and Fiebiger), 371
dentures, complete, tissue pressure under (Cutright et al.), 160
Maxillofacial prosthetics—"dental connection," (Davidson), 441
Measurement of occlusal wear of complete dentures, clinical results of (Harrison), 504
personality traits and their relation to patient satisfaction wtih complete dentures (Smith), 492
Measuring pressures against tissues supporting functioning complete dentures, method of (Kelsey et al.), 376
Mechanical stress, bone–titanium implant response to (Kydd and Daly), 567
Mechanics, profession, Canadian government, and delivery of removable dentures (Ryan), 89
Metal-ceramic restorations, design and technique variables affecting fracture resistance of (Warpeha and Goodkind), 291
pins, physical properties of dental amalgam containing (Ishikiriama et al.), 416
precious and nonprecious, photomicrographic evaluation of solder joint between (Walters), 689
Microscope study, electron—when to glaze (Barghi et al.), 648
Morphology of gingival capillaries adjacent to complete crowns (Maruyama et al.), 179
Muscle-formed complete mandibular dentures (Walsh and Walsh), 254

N

Neckaches/headaches and occlusal habits, some, incidence of, in initial survey population (Rieder), 445
News and notes, 118, 238, 364, 486, 601, 718
Niches, endemic plaque, excessive crown contours facilitate (Parkinson), 424
Nonprecious and precious metal, photomicrographic evaluation of solder joint between (Walters), 689

O

Obturator construction, reproducing vertical-lateral defect space in (Parel and Drane), 314
Occlusal aspects of dental restorations, specifications for (Guichet), 101
carvings, classification of (Guichet), 97
habits and headaches/neckaches, some, incidence of, in initial survey population (Rieder), 445
patterns, ideal, for complete dentures, quest for (Koyama et al.), 620
problems, practical and theoretical, application of "cusp writer" findings to. Part I (Scott), 211; Part II (Scott), 332
wear of complete dentures, clinical results of measurement of (Harrison), 504
Occlusion(s), canine and group-function, tooth loading and cuspal guidance in (McAdam), 283
concepts of, temporomandibular joint function and its effect on (Weinberg), 553
preferred vertical dimension of, psychophysical investigations of, in edentulous patients (van Willigen et al.), 259
Ocular portion of orbital prosthesis, fabrication of (Couillard and Schaaf), 478
Orbital prosthesis, fabrication of ocular portion of (Couillard and Schaaf), 478
Organizations, their parent, comparison of relationships of dental specialty boards with (Elliott), 341
Orofacial dyskinesia, using electromyographic biofeedback in treating (Farrar), 384
Osteopetrosis—prosthodontic treatment (Woodward et al.), 608

Overdenture(s) patients, sensory perception in (Kay and Abes), 615
removable partial (Strohaver and Trovillion), 624
retentive attachment for (Stansbury), 228

P

Palatal elevation and palatopharyngeal stimulation, prosthodontic aspects of (Mazaheri and Mazaheri), 319
Palate patient, congenital cleft-, prosthetic management of (Birnbach), 654
Palatopharyngeal stimulation and palatal elevation, prosthodontic aspects of (Mazaheri and Mazaheri), 319
Paralysis, unilateral facial, prosthetic support for (Larsen et al.), 192
Path of insertion of removable partial dentures, study of four methods of recording (Wagner and Forgue), 267
Patient(s), complete denture, treatment of, in geriatric facility (Fellman), 512
congenital cleft-palate, prosthetic management of (Birnbach), 654
dentulous hemimandibulectomy, rehabilitating (Moore and Mitchell), 202
edentulous, examination forms for—survey (Nassif), 222
hinge-axis location and face-bow transfer for (Renner and Lau), 352
psychophysical investigations of preferred vertical dimension of occlusion in (van Willigen et al.), 259
evaluation and diagnosis, face in (Emory), 247
laryngectomy, use of intraoral training aid in speech rehabilitation of (Light et al.), 430
overdenture, sensory perception in (Kay and Abes), 615
radiotherapy, intraoral infrared color photography of (McCarty), 327
satisfaction with complete dentures, measurement of personality traits and their relation to (Smith), 492
Pattern(s), direct, for post-core restoration, practical technique for fabrication of (Jacoby), 357
ideal occlusal, for complete dentures, quest for (Koyama et al.), 620
Peer review systems (O'Donnell), 87
Periodontal surgery, pseudogingival prosthesis following (Jaggers), 472
Personality traits, measurement of, and their relation to patient satisfaction with complete dentures (Smith), 492
Photography, intraoral infrared color, of radiotherapy patients (McCarty), 327
Photomicrographic evaluation of solder joint between precious and nonprecious metal (Walters), 689
Physical properties of dental amalgam containing metal pins (Ishikiriama et al.), 416
Pins, metal, physical properties of dental amalgam containing (Ishikiriama et al.), 416
Plaque niches, endemic, excessive crown contours facilitate (Parkinson), 424
Polycarboxylate cements, adhesion of, to dental casting alloys (Saito et al.), 543
Porcelain, stress-free support for multiple-unit frames for application of (Presswood and Choate), 585
Post-core restoraton, direct pattern for, practical technique for fabrication of (Jacoby), 357
Postgraduate and refresher courses, 112, 482
Practice, clinical, limitation of, to prosthodontics (Laney), 57
of dentistry, illegal, combating (Fletcher), 92
program, general, of advanced dental education, prosthodontics in (Plekavich), 26
prosthodontic, use of auxiliaries in (Wendt), 65
Precious and nonprecious metal, photomicrographic evaluation of solder joint between (Walters), 689
Predoctoral and advanced education, selection of accreditation consultants for (Ginley), 55
Prepayment, dental, structure of, in 1975 (Marshall), 84
Pressure(s) against tissues supporting functioning complete dentures, method of measuring (Kelsey et al.), 376
tissue, under complete maxillary dentures (Cutright et al.), 160
Profession, mechanics, Canadian government, and delivery of removable dentures (Ryan), 89
Program(s), general practice, of advanced dental education, prosthodontics in (Plekavich), 26
in prosthodontic(s), advanced education, recruiting students for (Brewer), 43

Program(s) in prosthodontic(s)—Cont'd
graduate, do we need all these (McHugh), 49
use of auxiliaries in (Ortman), 62
Properties, physical, of dental amalgam containing metal pins (Ishikiriama et al.), 416
Prosthesis, orbital, fabrication of ocular portion of (Couillard and Schaaf), 478
pseudogingival, following periodontal surgery (Jaggers), 472
Prosthodontic(s), advanced education in—curriculum content (Jones), 31
minimum clinical requirements for (Chalian and Dykema), 39
programs in, recruiting students for (Brewer), 43
American Board of, evaluation of examination given by (Woody and Grisius), 74
examination by—evaluation (Barnett), 71
future of (Sharry), 79
aspects of palatal elevation and palatopharyngeal stimulation (Mazaheri and Mazaheri), 319
clinical–undergraduate education, definition of (Brown), 15
education, advanced (Boucher), 29
minimal clinical requirements for (Koper), 34
survey of graduate students (Aborn), 47
at University of Southern California: making of prosthodontist (Landesman), 580
curriculum curtailment in (Sharry), 469
graduate, minimum clinical requirements for (Guyer), 37
and Research Foundation of (Boos and Perry), 572
undergraduate, minimal clinical requirements for (Kaufman), 18
future of (Payne), 3
and expanded-duty dental auxiliaries (Welker), 348
—Prosthodontic Workshop (Hickey), 1
in general practice program of advanced dental education (Plekavich), 26
graduate programs in, do we need all these (McHugh), 49
use of auxiliaries in (Ortman), 62
limitation of clinical practice to (Laney), 57
needs, meeting, with expanded-function auxiliaries (Leverett), 68
practice, use of auxiliaries in (Wendt), 65
Prosthodontic(s)—Cont'd
removable, in-service teacher training in (Brundo), 674
research in, current status of (Kapur), 107
teaching, in general dentistry (Welsh), 23
treatment—osteopetrosis (Woodward et al.), 608
undergraduate removable–1975 (Levin), 6
Workshop, opening remarks and charge to (Gehl), 2
Prosthodontist, making of: advanced prosthodontic education at University of Southern California (Landesman), 580
Protection, eye, from light radiation (Staffanou et al.), 682
Pseudogingival prosthesis following periodontal surgery (Jaggers), 472
Psychophysical investigations of preferred vertical dimension of occlusion in edentulous patients (van Willigen et al.), 259
Pulp reaction to temporary zinc oxide/eugenol cement (Brännstörm and Nyborg), 185

Q

Qualifications and number for undergraduate education: prosthetic teachers (McGivney), 10
Questionnaire, practical, for predicting denture success or failure (Levin and Landesman), 124

R

Radiation, light, eye protection from (Staffanou et al.), 682
Radiotherapy patients, intraoral infrared color photography of (McCarty), 327
Readers' round table, 114, 234, 361, 595, 693
Recording(s), edentulous gnathologic, utilizing "vacustatics" (Hunt and Yoxsimer), 588
path of insertion of removable partial dentures, study of four methods of (Wagner and Forgue), 267
Recruiting students for advanced education programs in prosthodontics (Brewer), 43
Registrations for relating mandibular cast to maxillary cast based on Kennedy's classification system (Lundquist and Fiebiger), 371
Rehabilitating dentulous hemimandibulectomy patients (Moore and Mitchell), 202
Rehabilitation of grossly deficient mandibles with combined subperiosteal implants and bone grafts (Kratochvil et al.), 452

Rehabilitation—Cont'd
speech, of laryngectomy patients, use of intraoral training aid in (Light et al.), 430
Replacements, mandibular—review of embedded implants (Williams et al.), 207
Requirements, minimal clinical, for advanced prosthodontic education (Koper), 34
undergraduate prosthodontic education (Kaufman), 18
minimum clinical, for advanced education in prosthodontics (Chalian and Dykema), 39
graduate prosthodontic education (Guyer), 37
Research Foundation of Prosthodontics, Education and (Boos and Perry), 572
in prosthodontics, current status of (Kapur), 107
Resection, electrosurgical, histologic comparison of effects of, using different electrodes (Noble et al.), 575
Resin, acrylic, tissue reaction to (Bickley et al.), 156
Resorption, ridge, with various surgical techniques, comparing, in immediate dentures (Michael and Barsoum), 142
Response, bone–titanium implant, to mechanical stress (Kydd and Daly), 567
Restoration(s), cast gold, effects of etching on margins of (Farne and Nealey), 273
retention in preparation of teeth for (Willey), 526
dental, occlusal aspects of, specifications for (Guichet), 101
extracoronal amalgam, utilizing available tooth structure for retention (Birtcil and Venton), 171
metal-ceramic, design and technique variables affecting fracture resistance of (Warpeha and Goodkind), 291
post-core, direct pattern for, practical technique for fabrication of (Jacoby), 357
Retention, extracoronal amaglam restorations utilizing available tooth structure for (Birtcil and Venton), 171
in preparation of teeth for cast restorations (Willey), 526
Retentive attachment for overdentures (Stansbury), 228
Review(s), book, 597, 695
systems, peer (O'Donnell), 87
Ridge resorption with various surgical techniques, comparing, in immediate dentures (Michael and Barsoum), 142
Root transplantation, autogenous, technique for (Yuodelis and Filipchuk), 307

S

Self-image and its relation to denture acceptance (Silverman et al.), 131
Sensory perception in overdenture patients (Kay and Abes), 615
Solder joint between precious and nonprecious metal, photomicrographic evaluation of (Walters), 689
Southern California, University of, advanced prosthodontic education at: making of prosthodontist (Landesman), 580
Space, vertical-lateral defect, reproducing, in obturator construction (Parel and Drane), 314
Specialty boards, dental, comparison of relationships of, with their parent organizations (Elliott), 341
Specifications for occlusal aspects of dental restorations (Guichet), 101
Speech rehabilitation of laryngectomy patients, use of intraoral training aid in (Light et al.), 430
Splints, cast chromium alloy surgical (Axinn et al.), 475
fixed, influence of, on mandibular flexure (Fischman), 643
Strength, dentinal bonding, of five dental cements, effect of varnish on (Chan et al.), 403
Stress-free support for multiple-unit frames for application of porcelain (Presswood and Choate), 585
mechanical, bone–titanium implant response to (Kydd and Daly), 567
Structure, available tooth, extracoronal amalgam restorations utilizing, for retention (Birtcil and Venton), 171
Student(s), graduate, survey of: advanced prosthodontic education (Aborn), 47
recruiting, for advanced education programs in prosthodontics (Brewer), 43
senior dental, survey of attitudes of: undergraduate education (Aborn), 21
Subperiosteal implants and bone grafts, combined, rehabilitation of grossly deficient mandibles with (Kratochvil et al.), 452
Support, prosthetic, for unilateral facial paralysis (Larsen et al.), 192

Support—Cont'd
stress-free, for multiple-unit frames for application of porcelain (Presswood and Choate), 585
Surgery, periodontal, pseudogingival prosthesis following (Jaggers), 472
Surgical splints, cast chromium alloy (Axinn et al.), 475
techniques, various, comparing ridge resorption with, in immediate dentures (Michael and Barsoum), 142
Survey of attitudes of senior dental students: undergraduate education (Aborn), 21
—examination forms for edentulous patients (Nassif), 222
of graduate students: advanced prosthodontic education (Aborn), 47
System(s), Kennedy's classification, registrations for relating mandibular cast to maxillary cast based on (Lundquist and Fiebiger), 371
peer review (O'Donnell), 87

T

Teacher(s), prosthetic: number and qualifications for undergraduate education (McGivney), 10
training, in-service, in removable prosthodontics (Brundo), 674
Teaching prosthodontics in general dentistry (Welsh), 23
Technique for autogenous root transplantation (Yuodelis and Filipchuk), 307
and design variables affecting fracture resistance of metal-ceramic restorations (Warpeha and Goodkind), 291
practical, for fabrication of direct pattern for post-core restoration (Jacoby), 357
Teeth, natural, dental casts made with (Cupero), 680
retention in preparation of, for cast restorations (Willey), 526
Temporomandibular joint disease, possible premature degenerative, in violinists (Rieder), 662
examination data, various, interrelationships of, in initial survey population (Rieder), 299
function and its effect on concepts of occlusion (Weinberg), 553
Tissue(s), irradiated soft and hard, characteristics of (Robinson), 549
pressure under complete maxillary dentures (Cutright et al.), 160
Tissue(s)—Cont'd
reaction to acrylic resin (Bickley et al.), 156
supporting functioning complete dentures, method of measuring pressures against (Kelsey et al.), 376
Titanium implant–bone response to mechanical stress (Kydd and Daly), 567
Tooth loading and cuspal guidance in canine and group-function occlusions (McAdam), 283
structure, available, extracoronal amalgam restorations utilizing, for retention (Birtcil and Venton), 171
Training aid, intraoral, use of, in speech rehabilitation of laryngectomy patients (Light et al.), 430
in-service teacher, in removable prosthodontics (Brundo), 674
Traits, personality, measurement of, and their relation to patient satisfaction with complete dentures (Smith), 492
Transplantation, autogenous root, technique for (Yuodelis and Filipchuk), 307
Treating orofacial dyskinesia, using electromyographic biofeedback in (Farrar), 384
Treatment of complete denture patients in geriatric facility (Fellman), 512
prosthodontic—osteopetrosis (Woodward et al.), 608

U

Undergraduate education–clinical prosthodontics, definition of (Brown), 15
number and qualifications for: prosthetic teachers (McGivney), 10
survey of attitudes of senior dental students (Aborn), 21
prosthodontic education, minimal clinical requirements for (Kaufman), 18
removable prosthodontics—1975 (Levin), 6
Unit frames, multiple-, stress-free support for, for application of porcelain (Presswood and Choate), 585
University of Southern California, advanced prosthodontic education at: making of prosthodontist (Landesman), 580

V

"Vacustatics," edentulous gnathologic recordings utilizing (Hunt and Yoxsimer), 588
Variables, design and technique, affecting fracture resistance of metal-ceramic restorations (Warpeha and Goodkind), 291

Varnish, effect of, on dentinal bonding strength of five dental cements (Chan et al.), 403
Vertical dimension of occlusion, preferred, psychophysical investigations of, in edentulous patients (van Willigen et al.), 259
-lateral defect space, reproducing, in obturator construction (Parel and Drane), 314
Violinists, possible premature degenerative temporomandibular joint disease in (Rieder), 662

W

Wax-ups, refractory cast, evaluating, for removable partial dentures (Frank), 388
Wear, occlusal, of complete dentures, clinical results of measurement of (Harrison), 504
Workshop, Prosthodontic—Future of Prosthodontics (Hickey), 1
opening remarks and charge to (Gehl), 2

Z

Zinc oxide/eugenol cement, temporary, pulp reaction to (Brännström and Nyborg), 185

Subject index

A

Abutment(s) for fixed partial dentures, syntactic, porous, polymethacrylate–vitreous carbon tooth-replica implants as (Hodosh et al.), 676
  teeth, nonparallel, technique for: Dolder bar joint mandibular overdenture (Marquardt), 101
Acrylic resin crown, temporary, marginal integrity of (Barghi and Simmons), 274
  and natural teeth, reflectance spectra of (Grajower et al.), 570
Adhesives, elastomer tray, bonding properties of (Davis et al.), 278
Adults, young, clinical evaluation of pit and fissure sealant for (Eden), 51
Air-tunnel speech rehabilitation, prosthetic device for (Shedd et al.), 82
Alloplastic tooth implants (Boucher), 567
Alloy(s) amalgam, dispersion, tissue reaction to (Nagem-Filho et al.), 399
  dental casting, burnishability of (Moon and Modjeski), 404
  laser-welded gold, heat treatment of (Eshleman et al.), 655
Amalgam, dental, development of new polishing agents for (Fusayama et al.), 409
  dispersion alloy, tissue reaction to (Nagem-Filho et al.), 399
  retention, silver, review of concepts of (Bouschor and Martin), 532
  surfaces, microstructure of (Chan et al.), 644
Amelogenesis imperfecta, treatment of (Lamb), 286
American Academy of Restorative Dentistry, report of Committee on Scientific Investigation of (Charbeneau et al.), 441
Angle(s), contact, of die stone on impression materials (Lorren et al.), 176
  Frankfort-mandibular plane, significance of, to prosthodontics (DiPietro and Moergeli), 624
Anomalies of vertical dimension and speech, controlling (Pound), 124
Articulator(s) in dental education and practice (Mohamed et al.), 319
  Hanau series of, loosening adjustments for (Cupero), 699
Articulator(s)—Cont'd
  selection for restorative dentistry (Hobo et al.), 35
Attachment, silicone rubber, for primary retention of partial dentures (Goldstein), 368

B

Bar clasp designs, mesial rest–I-, analysis of (Demer), 243
  joint mandibular overdenture, Dolder: technique for nonparallel abutment teeth (Marquardt), 101
Biologic responses, comparative, to various methyl methacrylate bone substitutes (Miller et al.), 95
Bond strengths of resin systems to etched enamel (Short et al.), 538
Bonding, micromechanical, internal enamel reinforcement through (Denehy and Torney), 171
  properties of elastomer tray adhesives (Davis et al.), 278
Bone substitutes, various methyl methacrylate, comparative biologic responses to (Miller et al.), 95
Book reviews, 233
Burnishability of dental casting alloys (Moon and Modjeski), 404

C

Carbon, vitreous, polymethacrylate tooth-replica implants, syntactic, porous, as abutments for fixed partial dentures (Hodosh et al.), 676
Cast(s) crowns, constructing, to fit existing removable partial denture clasps (Goldberg and Jones), 382
  improved artificial stone, study of distortion and surface hardness of (Kaiser and Nicholls), 373
  technique, open-, for metal molds used in constructing facial prostheses (Guerra and Canada), 421
Casting alloys, dental, burnishability of (Moon and Modjeski), 404
  ring, upper and lower parts of, hygroscopic expansion in (Vieira and Carvalho), 181

July, pp. 1-118; August, pp. 119-238; September, pp. 239-352; October, pp. 353-480; November, pp. 481-598; December, pp. 599-718.

Cavity liners for composite resin restorations, observations on (Grajower et al.), 265
Cavosurface margins, gingival, scanning electron microscope study of junction between restorations and (Saltzberg et al.), 517
Cephalometric study, five-year, of mandibular ridge resorption with different posterior occlusal forms. Part I. Denture construction and initial comparison (Woelfel et al.), 602
Ceramic-metal restoration(s), characterization of gold-palladium-silver and palladium-silver for (Huget et al.), 58
process, study of (Koseyan and Biswas), 694
units, nonprecious, reliable technique of post soldering of (Blustein et al.), 112
Changes, Journal (Hickey), 242
Characterization of gold-palladium-silver and palladium-silver for ceramic-metal restorations (Huget et al.), 58
Clasp(s) designs, mesial rest–I-bar, analysis of (Demer), 243
existing removable partial denture, constructing cast crowns to fit (Goldberg and Jones), 382
Cleft lip and palate, treatment of patients with, continuing role of prosthodontist in (Moore), 186
Committee on Scientific Investigation of American Academy of Restorative Dentistry, report of (Charbeneau et al.), 441
Computer storage, method of transferring mandibular-movement data to (McCoy et al.), 510
Condylar displacement, posterior bilateral: diagnosis and treatment (Weinberg), 426
Conformative dentistry, occlusal management in (Celenza and Litvak), 164
Copper tube impressions, simplified, for full crown coverage (Singer), 588
Core(s), intraoral, use of, to repair complete and partial removable prostheses (Bolouri and Bell), 472
and post systems, retentive properties of (Newburg and Pameijer), 636
Crown(s), cast, reconstructing, to fit existing removable partial denture clasps (Goldberg and Jones), 382
coverage, full, simplified copper tube impressions for (Singer), 588
temporary acrylic resin, marginal integrity of (Barghi and Simmons), 274

D

Data, mandibular-movement, method of transferring, to computer storage (McCoy et al.), 510
Dentist, general, role of, in maxillofacial prosthetics (Tang), 416
Denture(s), chair-side transitional (Guevara and Elstner), 226
clasps, existing removable partial, constructing cast crowns to fit (Goldberg and Jones), 382
Denture(s)—Cont'd
complete, and associated soft tissues (Jones), 136
histologic comparison of palatal mucosa before and after wearing (Jani and Bhargava), 254
neutral zone in (Beresin and Schiesser), 356
construction, relationship of investing medium to occlusal changes and vertical opening during (Zakhari), 501
fixed partial, syntactic, porous, polymethacrylate–vitreous carbon tooth-replica implants as abutments for (Hodosh et al.), 676
and removable partial, treatment planning for: periodontal view (Clarke), 44
partial, silicone rubber attachment for primary retention of (Goldstein), 368
patient's existing, individualized impression tray utilizing (LaVere and Freda), 334
in place, variations in mandibular rest positions with and without (Gattozzi et al.), 159
pressures under, during function, relationship between width of the occlusal table and (Roedema), 24
prosthodontics, complete, for radiation patient (Curtis et al.), 66
Design(s), mesial rest–I-bar clasp, analysis of (Demer), 243
obturator, for hemimaxillectomy patients (Javid and Dadmanesh), 77
Device, prosthetic, for air-tunnel speech rehabilitation (Shedd et al.), 82
Die(s), direct refractory, porcelain shoulder adaptation using (Schneider et al.), 583
stone, contact angles of, on impression materials (Lorren et al.), 176
systems, two removable, comparative stability of (Miranda et al.), 326
Dimension, vertical, and speech, controlling anomalies of (Pound), 124
Directory, 115, 235, 349, 476, 594, 701
Displacement, posterior bilateral condylar: diagnosis and treatment (Weinberg), 426
Distortion and surface hardness of improved artificial stone casts, study of (Kaiser and Nicholls), 373
Dogs, beagle, titanium endosteal dental implants in the mandibles of: 2 year study (Gourley et al.), 550
Dolder bar joint mandibular overdenture: technique for nonparallel abutment teeth (Marquardt), 101

E

Edentulous mandible, remodeling of (Enlow et al.), 685
patients, evaluation of terminal hinge position and neuromuscular position in. Part I. Maxillomandibular recordings (Graser), 491
oral reconstruction for, after partial mandibulectomies (Schaaf), 292

Edentulous patients—Cont'd
partially, residual ridge in (Pietrokovski et al.), 150
radiation complications in (Beumer et al.), 193
Editor, through eyes of (Section editors), 1, 119, 239, 353, 481, 599
Education and practice, dental, articulators in (Mohamed et al.), 319
Elastomer tray adhesives, bonding properties of (Davis et al.), 278
Electron microscope study, scanning, of junction between restorations and gingival cavosurface margins (Saltzberg et al.), 517
Enamel, etched, bond strengths of resin systems to (Short et al.), 538
reinforcement, internal, through micromechanical bonding (Denehy and Torney), 171
Endosteal dental implants, titanium, in mandibles of beagle dogs: 2 year study (Gourley et al.), 550
Etched enamel, bond strengths of resin systems to (Short et al.), 538
Expansion, hygroscopic, in upper and lower parts of casting ring (Vieira and Carvalho), 181
Eye impression technique, open-, for orbital prostheses (Katz and Gold), 88

F

Facial prostheses, open-cast technique for metal molds used in constructing (Guerra and Canada), 421
Federation of Prosthodontic Organizations: Annual Session Report, 1975 (McGivney), 337
Fissure and pit sealant for young adults, clinical evaluation of (Eden), 51
Frankfort-mandibular plane angle, significance of, to prosthodontics (DiPietro and Moergeli), 624
Function, pressures under dentures during, relationship between width of occlusal table and (Roedema), 24

G

Gingival cavosurface margins, scanning electron microscope study of junction between restorations and (Saltzberg et al.), 517
displacement, nonsurgical, exposure of subgingival margins by (Reiman), 649
Gold alloys, laser-welded, heat treatment of (Eshleman et al.), 655
inlays, evaluation of techniques for finishing margins of (Metzler and Chandler), 523
palladium-silver and palladium-silver for ceramic-metal restorations, characterization of (Huget et al.), 58
Graft vestibuloplasty, split-thickness skin, stent for (Firtell et al.), 204

H

Hanau series of articulators, loosening adjustments for (Cupero), 699
Hardness, abrasive wear, and tensile strength of dental composite resins—Is there a relationship? (Harrison and Draughn), 395
surface, and distortion of improved artificial stone casts, study of (Kaiser and Nicholls), 373
Heat treatment of laser-welded gold alloys (Eshleman et al.), 655
Hemimaxillectomy patients, obturator design for (Javid and Dadmanesh), 77
Hinge position, terminal, and neuromuscular position in edentulous patients, evaluation of. Part I. Maxillomandibular recordings (Graser), 491
Histologic comparison of palatal mucosa before and after wearing complete dentures (Jani and Bhargava), 254
Hygroscopic expansion in upper and lower parts of casting ring (Vieira and Carvalho), 181

I

I-bar clasp designs, mesial rest–, analysis of (Demer), 243
Implants, alloplastic tooth (Boucher), 567
syntactic, porous, polymethacrylate–vitreous carbon tooth-replica, as abutments for fixed partial dentures (Hodosh et al.), 676
titanium endosteal dental, in mandibles of beagle dogs: 2 year study (Gourley et al.), 550
Impression(s) materials, contact angles of die stone on (Lorren et al.), 176
simplified copper tube, for full crown coverage (Singer), 588
technique, open-eye, for orbital prostheses (Katz and Gold), 88
tray, individualized, utilizing patient's existing denture (LaVere and Freda), 334
Index, stable accurate, method for constructing—Model surgery (Olson and Cap), 660
Inlays, gold, evaluation of techniques for finishing margins of (Metzler and Chandler), 523
Intraoral cores, use of, to repair complete and partial removable prostheses (Bolouri and Bell), 472
Investigation, Scientific, Report of Committee on, of American Academy of Restorative Dentistry (Charbeneau et al.), 441
Investing medium, relationship of, to occlusal changes and vertical opening during denture construction (Zakhari), 501

J

Jaw movement, measurement of. Part I (Lemmer et al.), 211
Part II (Lewin et al.), 312
Joint mandibular overdenture, Dolder bar: technique for nonparallel abutment teeth (Marquardt), 101
Journal changes (Hickey), 242

Junction between restorations and gingival cavosurface margins, scanning electron microscope study of (Saltzberg et al.), 517

K

Kits, reliner do-it-yourself, warning labels on (Thurgood and DeCounter), 17

L

Labels, warning, on reliner do-it-yourself kits (Thurgood and DeCounter), 17

Laser-welded gold alloys, heat treatment of (Eshleman et al.), 655

Liners, cavity, for composite resin restorations, observations on (Grajower et al.), 265

Lip and palate, cleft, treatment of patients with, continuing role of prosthodontist in (Moore), 186

M

Mandible(s) of beagle dogs, titanium endosteal dental implants in: 2 year study (Gourley et al.), 550

edentulous, remodeling of (Enlow et al.), 685

Mandibular-Frankfort plane angle, significance of, to prosthodontics (DiPietro and Moergeli), 624

movement data, method of transferring, to computer storage (McCoy et al.), 510

overdenture, Dolder bar joint: technique for nonparallel abutment teeth (Marquardt), 101

rest positions with and without dentures in place, variations in (Gattozzi et al.), 159

ridge resorption with different posterior occlusal forms, five-year cephalometric study of. Part I. Denture construction and initial comparison (Woelfel et al.), 602

Mandibulectomies, partial, oral reconstruction for edentulous patients after (Schaaf), 292

Marginal integrity of temporary acrylic resin crown (Barghi and Simmons), 274

Margins, gingival cavosurface, scanning electron microscope study of junction between restorations and (Saltzberg et al.), 517

of gold inlays, evaluation of techniques for finishing (Metzler and Chandler), 523

subgingival, exposure of, by nonsurgical gingival displacement (Reiman), 649

Materials, impression, contact angles of die stone on (Lorren et al.), 176

Maxillary obturator, magnetically retained interim (Federick), 671

orthopedic prosthesis, construction of, for simultaneous maxillary expansion and obturation (LaVelle and Van Demark), 665

Maxillofacial prostheses, light-weight RTV silicone for (Firtell et al.), 544

prosthetics, role of general dentist in (Tang), 416

Maxillomandibular recordings, Part I. Evaluation of terminal hinge position and neuromuscular position in edentulous patients (Graser), 491

Measurement of jaw movement. Part I (Lemmer et al.), 211

Part II (Lewin et al.), 312

Mesial rest–I-bar clasp designs, analysis of (Demer), 243

Metal-ceramic restoration(s), characterization of gold-palladium-silver and palladium-silver for (Huget et al.), 58

process, study of (Koseyan and Biswas), 694

molds used in constructing facial prostheses, open-cast technique for (Guerra and Canada), 421

Methacrylate bone substitutes, various methyl, comparative biologic responses to (Miller et al.), 95

Methyl methacrylate bone substitutes, various, comparative biologic responses to (Miller et al.), 95

Micromechanical bonding, internal enamel reinforcement through (Denehy and Torney), 171

Microscope study, scanning electron, of junction between restorations and gingival cavosurface margins (Saltzberg et al.), 517

Microstructure of amalgam surfaces (Chan et al.), 644

Model surgery—Method for constructing stable, accurate index (Olson and Cap), 660

Molds, metal, used in constructing facial prostheses, open-cast technique for (Guerra and Canada), 421

Movement data, mandibular-, method of transferring, to computer storage (McCoy et al.), 510

jaw, measurement of. Part I (Lemmer et al.), 211

Part II (Lewin et al.), 312

Mucosa, palatal, histologic comparison of, before and after wearing complete dentures (Jani and Bhargava), 254

N

Neuromuscular position and terminal hinge position in edentulous patients, evaluation of. Part I. Maxillomandibular recordings (Graser), 491

News and notes, 117, 237, 351, 478, 596, 716

Nonprecious ceramic units, reliable technique of post soldering of (Blustein et al.), 112

O

Obturation and expansion, simultaneous maxillary, construction of maxillary orthopedic prosthesis for (LaVelle and Van Demark), 665

Obturator(s) design for hemimaxillectomy patients (Javid and Dadmanesh), 77

hollow, simplified method for making (Matalon and LaFuente), 580

magnetically retained interim maxillary (Federick), 671

Obturator(s)—Cont'd
preoperative and immediate postoperative (Carl), 298
Occlusal changes and vertical opening during denture construction, relationship of investing medium to (Zakhari), 501
forms, different posterior, mandibular ridge resorption with, five-year cephalometric study of. Part I. Denture construction and initial comparison (Woelfel et al.), 602
management in conformative dentistry (Celenza and Litvak), 164
table, width of, and pressures under dentures during function, relationship between (Roedema), 24
Occlusion, restorative, utilizing custom incisal guide table (Balshi et al.), 468
Oral reconstruction for edentulous patients after partial mandibulectomies (Schaaf), 292
Orbital prostheses (Joneja et al.), 306
open-eye impression technique for (Katz and Gold), 88
Organizations, Federation of Prosthodontic: Annual Session Report, 1975 (McGivney), 337
Orthopedic prosthesis, maxillary, construction of, for simultaneous maxillary expansion and obturation (LaVelle and Van Demark), 665
Overdenture(s), Dolder bar joint mandibular: technique for nonparallel abutment teeth (Marquardt), 101
interim (Fenton), 4

P

Palatal mucosa, histologic comparison of, before and after wearing complete dentures (Jani and Bhargava), 254
Palate and lip, cleft, treatment of patients with, continuing role of prosthodontist in (Moore), 186
Palladium-silver and gold-palladium-silver for ceramic-metal restorations, characterization of (Huget et al.), 58
Pedodontic prostheses (Walsh), 13
Periodontal considerations of restorative procedures (Palomo and Peden), 387
view: treatment planning for fixed and removable partial dentures (Clarke), 44
Pit and fissure sealant for young adults, clinical evaluation of (Eden), 51
Plane angle, Frankfort-mandibular, significance of, to prosthodontics (DiPietro and Moergeli), 624
Polishing agents, new, for dental amalgam, development of (Fusayama et al.), 409
Polymethacrylate–vitreous carbon tooth-replica implants, syntactic, porous, as abutments for fixed partial dentures (Hodosh et al.), 676
Porcelain shoulder adaptation using direct refractory dies (Schneider et al.), 583
Position(s), mandibular rest, variations in, with and without dentures in place (Gattozzi et al.), 159
Position(s)—Cont'd
terminal hinge, and neuromuscular position in edentulous patients, evaluation of. Part I. Maxillomandibular recordings (Graser), 491
Post and core systems, retentive properties of (Newburg and Pameijer), 636
soldering of nonprecious ceramic units, reliable technique of (Blustein et al.), 112
Practice and education, dental, articulators in (Mohamed et al.), 319
Pressures under dentures during function, relationship between width of the occlusal table and (Roedema), 24
Procedures, restorative, periodontal considerations of (Palomo and Peden), 387
Properties, bonding, of elastomer tray adhesives (Davis et al.), 278
retentive, of post and core systems (Newburg and Pameijer), 636
Prostheses, complete and partial removable, use of intraoral cores to repair (Bolouri and Bell), 472
facial, open-cast technique for metal molds used in constructing (Guerra and Canada), 421
maxillofacial, light-weight RTV silicone for (Firtell et al.), 544
orbital (Joneja et al.), 306
open-eye impression technique for (Katz and Gold), 88
pedodontic (Walsh), 13
Prosthesis, maxillary orthopedic, construction of, for simultaneous maxillary expansion and obturation (LaVelle and Van Demark), 665
Prosthodontics, complete denture, for radiation patient (Curtis et al.), 66
danger ahead for—Beware (Klein), 122
Organizations, Federation of: Annual Session Report, 1975 (McGivney), 337
—Past, present, and future (Love), 261
significance of Frankfort-mandibular plane angle to (DiPietro and Moergeli), 624
Prosthodontist, continuing role of, in treatment of patients with cleft lip and palate (Moore), 186

R

Radiation complications in edentulous patients (Beumer et al.), 193
patient, complete denture prosthodontics for (Curtis et al.), 66
Readers' round table, 232, 593
Rebase-reline technique, reliable (Levin), 219
Recordings, maxillomandibular, Part I. Evaluation of terminal hinge position and neuromuscular position in edentulous patients (Graser), 491
Reflectance spectra of natural and acrylic resin teeth (Grajower et al.), 570
Rehabilitation, air-tunnel speech, prosthetic device for (Shedd et al.), 82
Reline-rebase technique, reliable (Levin), 219
Reliner do-it-yourself kits, warning labels on (Thurgood and DeCounter), 17

Remodeling of edentulous mandible (Enlow et al.), 685
Repair complete and partial removable prostheses, use of intraoral cores to (Bolouri and Bell), 472
Report, Annual Session, 1975: Federation of Prosthodontic Organizations (McGivney), 337
of Committee on Scientific Investigation of American Academy of Restorative Dentistry (Charbeneau et al.), 441
Resin(s), acrylic, and natural teeth, reflectance spectra of (Grajower et al.), 570
crown, temporary acrylic, marginal integrity of (Barghi and Simmons), 274
dental composite, abrasive wear, tensile strength, and hardness of—Is there a relationship? (Harrison and Draughn), 395
restorations, composite, observations on cavity liners for (Grajower et al.), 265
systems, bond strengths of, to etched enamel (Short et al.), 538
Resorption, mandibular ridge, with different posterior occlusal forms, five-year cephalometric study of. Part I. Denture construction and initial comparison (Woelfel et al.), 602
Responses, comparative biologic, to various methyl methacrylate bone substitutes (Miller et al.), 95
Rest–I-bar clasp designs, mesial, analysis of (Demer), 243
positions, mandibular, variations in, with and without dentures in place (Gattozzi et al.), 159
Restoration(s), ceramic-metal, characterization of gold-palladium-silver and palladium-silver for (Huget et al.), 58
composite resin, observations on cavity liners for (Grajower et al.), 265
and gingival cavosurface margins, scanning electron microscope study of junction between (Saltzberg et al.), 517
process, ceramic-metal, study of (Koseyan and Biswas), 694
Restorative Dentistry, American Academy of, report of Committee on Scientific Investigation of (Charbeneau et al.), 441
articulator selection for (Hobo et al.), 35
occlusion utilizing custom incisal guide table (Balshi et al.), 468
procedures, periodontal considerations of (Palomo and Peden), 387
Retention, primary, of partial dentures, silicone rubber attachment for (Goldstein), 368
silver amalgam, review of concepts of (Bouschor and Martin), 532
Retentive properties of post and core systems (Newburg and Pameijer), 636
Ridge, residual, in partially edentulous patients (Pietrokovski et al.), 150
Ridge—Cont'd
resorption, mandibular, with different posterior occlusal forms, five-year cephalometric study of. Part I. Denture construction and initial comparison (Woelfel et al.), 602
Ring, casting, upper and lower parts of, hygroscopic expansion in (Vieira and Carvalho), 181
Role, continuing, of prosthodontist in treatment of patients with cleft lip and palate (Moore), 186
of general dentist in maxillofacial prosthetics (Tang), 416
RTV silicone, light-weight, for maxillofacial prostheses (Firtell et al.), 544
Rubber attachment, silicone, for primary retention of partial dentures (Goldstein), 368

S

Scanning electron microscope study of junction between restorations and gingival cavosurface margins (Saltzberg et al.), 517
Sealant, pit and fissure, for young adults, clinical evaluation of (Eden), 51
Shoulder adaptation, porcelain, using direct refractory dies (Schneider et al.), 583
Silicone, light-weight RTV, for maxillofacial prostheses (Firtell et al.), 544
rubber attachment for primary retention of partial dentures (Goldstein), 368
Silver amalgam retention, review of concepts of (Bouschor and Martin), 532
palladium and gold-palladium-silver for ceramic-metal restorations, characterization of (Huget et al.), 58
Skin graft vestibuloplasty, split-thickness, stent for (Firtell et al.), 204
Soldering, post, of nonprecious ceramic units, reliable technique of (Blustein et al.), 112
Spectra, reflectance, of natural and acrylic resin teeth (Grajower et al.), 570
Speech, controlling anomalies of vertical dimension and (Pound), 124
rehabilitation, air-tunnel, prosthetic device for (Shedd et al.), 82
Stability, comparative, of two removable die systems (Miranda et al.), 326
Stent for split-thickness skin graft vestibuloplasty (Firtell et al.), 204
Stone casts, improved artificial, study of distortion and surface hardness of (Kaiser and Nicholls), 373
die, contact angles of, on impression materials (Lorren et al.), 176
Strength(s), bond, of resin systems to etched enamel (Short et al.), 538
tensile, abrasive wear, and hardness of dental composite resins—Is there a relationship? (Harrison and Draughn), 395
Subgingival margins, exposure of, by nonsurgical gingival displacement (Reiman), 649

Surgery, model—Method for constructing stable, accurate index (Olson and Cap), 660
preprosthetic: sometimes overlooked (Miller), 484
Systems, resin, bond strengths of, to etched enamel (Short et al.), 538
two removable die, comparative stability of (Miranda et al.), 326

T

Table, custom incisal guide, restorative occlusion utilizing (Bakshi et al.), 468
occlusal, width of, and pressures under dentures during function, relationship between (Roedema), 24
Technique(s) for finishing margins of gold inlays, evaluation of (Metzler and Chandler), 523
nonparallel abutment teeth: Dolder bar joint mandibular overdenture (Marquardt), 101
open-cast, for metal molds used in constructing facial prostheses (Guerra and Canada), 421
open-eye impression, for orbital prostheses (Katz and Gold), 88
reliable, of post soldering of nonprecious ceramic units (Blustein et al.), 112
reline-rebase (Levin), 219
Teeth, natural and acrylic resin, reflectance spectra of (Grajower et al.), 570
nonparallel abutment, technique for: Dolder bar joint mandibular overdenture (Marquardt), 101
Tensile strength, abrasive wear, and hardness of dental composite resins—Is there a relationship? (Harrison and Draughn), 395
Tissue(s), associated soft, complete dentures and (Jones), 136
reaction to dispersion alloy amalgam (Nagem-Filho et al.), 399
Titanium endosteal dental implants in mandibles of beagle dogs: 2 year study (Gourley et al.), 550
Tooth implants, alloplastic (Boucher), 567
Tray adhesives, elastomer, bonding properties of (Davis et al.), 278
individualized impression, utilizing patient's existing denture (LaVere and Freda), 334
Treatment of amelogenesis imperfecta (Lamb), 286
and diagnosis: posterior bilateral condylar displacement (Weinberg), 426
of patients with cleft lip and palate, continuing role of prosthodontist in (Moore), 186
planning for fixed and removable partial dentures: periodontal view (Clarke), 44
Tube impressions, simplified copper, for full crown coverage (Singer), 588

V

Vestibuloplasty, split-thickness skin graft, stent for (Firtell et al.), 204

W

Warning labels on reliner do-it-yourself kits (Thurgood and DeCounter), 17
Wear, abrasive, tensile strength, and hardness of dental composite resins—Is there a relationship? (Harrison and Draughn), 395
Welded gold alloys, laser-, heat treatment of (Eshleman et al.), 655
Width of occlusal table and pressures under dentures during function, relationship between (Roedema), 24

Z

Zone, neutral, in complete dentures (Beresin and Schiesser), 356
